OMB No. OMB 0990-0323

Abstract: (Department of Health and Human Services, Administration for Strategic Preparedness and Response (ASPR)).

The U.S. Government seeks information from stakeholders on available medical countermeasures in development, with a particular interest in products, technologies, and capabilities that have progressed into or beyond clinical trials, have established large-scale cGMP manufacturing capability, or utilize an approved platform. Information regarding diagnostics, therapeutics, vaccines, and other products, technologies, or capabilities relevant to respond to public health emergencies are sought. The TechWatch program, run by ASPR/BARDA, provides the Medicalcountermeasures.gov bdr.hhs.gov portal as a single point of entry for the submission of meeting requests from interested stakeholders with promising MCM products, technologies, and capabilities.

Annualized Burden Hour Table

| Forms (If necessary) | Respondents (If necessary) | Number of Respondents | Number of Responses per Respondents | Average Burden per Response | Total Burden Hours |
